A PERSONAL NOTE

What I will build for MCC Bound Legends

You run a fully licensed, fully insured transport company out of Altamonte Springs, moving cars, boats, motorcycles and heavy equipment across all 50 states. **USDOT 4464266, MC 1760960**. The operation is real. The website is the part that has not kept up with it.

Before writing this I went through your live site the way a customer would, on a laptop and on an iPhone, page by page. I am not going to pretend it is fine. Your customer video reviews load as black boxes, your "trusted by" section is empty, and on a phone your main photo does not appear at all until someone taps the screen. **You are paying Google for clicks that land on that.**

Auto transport is a speed game. A customer moving a car fills three or four quote forms in ten minutes and books whoever answers first and feels safest. That decision gets made on your website, before they ever speak to you. This proposal is about winning that decision.

What this proposal covers

Your current site, reviewed

A straight page-by-page review of mccboundlegends.com, what is working and what is costing you calls right now.

The site plan to match

Every page that gets built, what each one does, and which package it belongs to. No vague "up to 15 pages".

Two clear packages

A Foundation Website at \$740 and a Growth Website at \$1,130, each with exactly what is included and what is not.

Timeline, terms and sign off

A 10 working day plan, simple 50/50 payment terms, and a signature page so we can start right away.

My recommendation, up front

Go with the **Growth Website at \$1,130**. You are already spending on Google Ads. The local pages, the cost-to-ship page and the conversion tracking are the parts that turn that spend into booked loads instead of guesswork. The Foundation site will look good. The Growth site works for you every day. Full comparison is on page 8.

Web design and development · yasirbashir.com

UNDERSTANDING YOUR BUSINESS

What you move, and who needs to find you

Your website has to work for two very different buyers at the same time, and right now it speaks properly to neither. Getting this split right is most of the job.

THE INDIVIDUAL

- **Moving one vehicle.** A relocation, a college kid, a snowbird heading north, a car bought out of state.
- **Nervous.** It is often their most valuable possession on a truck with a stranger.
- **Price sensitive and fast.** Three or four quotes, books the first credible callback.
- **On a phone.** Almost always. Which is exactly where your site currently looks broken.

THE REPEAT ACCOUNT

- **Dealers and auctions.** Regular volume, needs to see you handle it at scale.
- **Boat and yacht owners.** High value, wants specialist proof, not a generic car page.
- **Military relocations.** PCS moves, deadlines that do not move.
- **Checks credentials.** Looks for your DOT and MC before anything else.

What the new site has to do

1. Get the quote in under 20 seconds

A short, step by step quote flow instead of one long form. Zip to zip, vehicle, date, done. Fewer fields on screen means more people finish it.

2. Tell you the second it lands

Every quote emails you, and on the Growth package texts your phone, the moment it is submitted. In this business the first callback wins the load.

3. Prove you are safe to trust

DOT and MC numbers, insurance explained in plain language, no deposit made obvious, real reviews with real names and real routes.

4. Get found by people already searching

A real page for every service, and on Growth, a page for every city and route you want to own. Someone in Orlando should land on an Orlando page.

WEBSITE REVIEW · MCCBOUNDLEGENDS.COM

What your site gets right, and what is costing you loads

I reviewed your live site in detail on desktop and on an iPhone. Here is what is worth keeping, and what a visitor sees that makes them leave. None of this is guesswork, you can see all of it yourself.

WORTH KEEPING

- **Credentials up top.** DOT and MC numbers in the header, exactly the right signal in this industry.
- **Quote form above the fold.** The right instinct, with proper text message consent language.
- **No deposit promise.** A genuine differentiator that deserves far more prominence.
- **Two pages done properly.** Boat Transport and Open Transport are complete, well written pages.

WHERE IT FALLS SHORT

- **Black boxes for reviews.** Five customer video slots render as solid black rectangles.
- **An empty promise.** "Trusted By Leading Automotive Brands" has nothing underneath it.
- **Grey on mobile.** Your main photo does not load until the visitor taps the screen.
- **Unfinished service pages.** Most are two short paragraphs while two are full pages.

Your site today, and what changes

YOUR SITE TODAY**YOUR NEW SITE WILL**

Customer videos show as black boxes	Real reviews that play, with names and routes attached
Car manufacturer logos you do not have rights to	Your own DOT, MC, insurance and customer proof instead
Grey screen on a phone until someone taps	Full hero image on first paint, on every device
No page for "how much does it cost to ship a car"	A full cost page, the highest volume search in your industry
Nothing for Orlando, Tampa, Miami or Jacksonville	A dedicated page for every market you want to own
Two identical Services pages competing in Google	One page, redirected properly, all its strength in one place
Google Ads running with no conversion tracking	Every quote tracked, so you know which clicks became loads

One thing I have to raise before we start. Your homepage carries Aston Martin, Ford, BMW, Mercedes and Lamborghini logos under a heading saying you are trusted by them, plus a Federal Highway Administration logo. Those are not your marks to use, and your page publishes a five star rating built from two reviews, which is against Google's rules. All of it comes off in either package.

THE PAGES YOU GET

Every page, and which package it belongs to

No vague page counts. This is the exact list, so you know precisely what is being built before you pay anything. Privacy Policy and Terms are rebuilt in both packages and are not counted against your total.

Proposed site map

PAGE	WHAT IT DOES	FOUNDATION	GROWTH
Home	Insured nationwide promise, quote form, credentials, real reviews	✓	✓
Services hub	Everything you move, in one place, linking to each page	✓	✓
8 service pages	Car, Open, Enclosed, Boat & Yacht, Motorcycle, Heavy Equipment, Truck & SUV, Classic	✓	✓
How It Works	Quote to pickup to delivery, step by step, no surprises	✓	✓
About	Your story, your authority, your insurance, explained plainly	✓	✓
FAQ	The questions you actually get on the phone, answered once	✓	✓
Reviews	Real customers, real routes, videos that actually play	✓	✓
Get a Free Quote	The full quote flow with a thank you page	✓	✓
Contact	Map, hours, tap to call, direct email	✓	✓
Cost to ship a car	The highest volume search in auto transport, answered properly	✗	✓
4 more service pages	Military & Veterans, Auction & Dealer, Expedited, ATV & UTV	✗	✓
6 city pages	Orlando, Altamonte Springs, Tampa, Jacksonville, Miami, Fort Lauderdale	✗	✓
2 route pages	Florida to California, Florida to New York	✗	✓
Auto Transport Tips	Article hub with 3 pieces, catching customers in research mode	✗	✓
Review request page	Turns a delivered load into a public review	✗	✓

Whatever page a visitor lands on, the quote is one tap away and your phone number is visible. No dead ends.

PACKAGE A

Foundation Website

Foundation Website

A complete, properly finished 15 page site with a quote form that reaches you

\$740 one time

The Foundation package is the website you asked about, built properly. Fifteen custom pages in your branding, every service page finished instead of half written, a quote flow that actually delivers to your inbox, and every broken thing on the current site fixed. It is the right choice if you want a strong, credible presence first and plan to add the search and local work later.

What is included

Fifteen custom pages

Home, Services hub, eight service pages, How It Works, About, FAQ, Reviews and Contact. Designed in your branding, no templates, no repeated paragraphs.

Mobile first design

Your customers search on phones. Every page is designed for a phone first, then scaled up to desktop, with a tap to call button that follows them down the page.

Multi-step quote form

Zip to zip, vehicle, date, contact. Short steps instead of one long form, so more people finish it. Tested end to end and delivered to your email instantly.

Trust rebuilt honestly

Borrowed manufacturer logos and the published star rating come off. Your DOT, MC, insurance, no deposit promise and real customer reviews go in their place.

Every current fault fixed

Black video boxes, the empty brand carousel, the grey mobile homepage, the duplicate Services page, missing page headlines and broken links. All of it.

Search foundations

Proper page titles, descriptions and headings on all fifteen pages, a clean sitemap, and correct business listing details so Google can read the site properly.

Not included in this package

- **City and route pages.** Local search pages for Orlando, Tampa and your key routes are part of the Growth package only.
- **Cost to ship a car page.** The highest volume search in your industry is covered in Growth.
- **Text message lead alerts and Google Ads conversion tracking.** Growth package only.
- **Third party costs.** Domain and hosting stay registered in your name and are billed at cost, typically \$15 to \$60 per year.

PACKAGE B · RECOMMENDED

Growth Website

Growth Website

Everything in Foundation, plus the pages and alerts that bring you loads

\$1,130 one time

The Growth package is everything in Foundation plus the parts that serve your main goal directly: being found by people already searching, and being the first company to call them back. Instead of a site that waits, you get a site that brings in enquiries and tells you about them instantly.

Everything in Foundation, plus

8 local pages

Orlando, Altamonte Springs, Tampa, Jacksonville, Miami, Fort Lauderdale, plus Florida to California and Florida to New York. Each written for its own market, not copy and pasted.

The cost page

"How much does it cost to ship a car", the single most searched question in auto transport, answered with real ranges by distance and vehicle type.

Text alerts on every lead

Every quote texts your phone the second it is submitted, with the full details, so you are the first callback instead of the third.

Four more service pages

Military & Veterans, Auction & Dealer, Expedited, and ATV & UTV Transport, each a real page rather than a line on a list.

Full search build

Every page mapped to the searches it should win, internal linking so your pages support each other, and your Google Business Profile tidied up and connected to the new local pages.

Google Ads tracking fixed

Conversion tracking wired and verified with a live test lead, plus Search Console and Analytics connected, so you finally see which clicks became real loads.

Tips hub and review capture

Three articles that catch customers while they are still researching, and a page you send after delivery that turns a happy customer into a public review.

Why this package fits your goal

You are already paying Google for clicks. Right now those clicks land on a site with no conversion tracking, no local pages and a grey screen on mobile, so you cannot tell what is working and the visitor often leaves. For **\$390 more**, the website stops being a brochure and becomes the thing that finds customers and hands them to you first.

Choose Foundation if

You want a credible, properly finished website quickly, your leads come mostly from referrals and repeat customers, and you plan to add the search work in a later phase.

Choose Growth if · Recommended

You want the website itself to bring in customers and tell you the moment one arrives. This is the package that matches what you are already spending on Google Ads.

THE PLAN

Timeline, payment and proven work

Ten working days

STAGE	WHAT HAPPENS	YOU WILL SEE
Days 1-2	Kickoff call, assets collected, page structure and copy direction agreed	Your sitemap, approved by you
Days 3-4	Homepage designed first, desktop and mobile, before anything else gets built	Homepage preview to review
Days 5-7	Every service and core page built and written, then the search build and local pages	Full working preview link
Day 8	Quote form, email and text alerts, tracking and speed, all tested with a live submission	A real test lead in your inbox
Days 9-10	Your revision round, final polish, launch with old links redirected, walkthrough and handover	Your live website

The clock starts on receipt of the signed proposal and deposit. Days are working days. One structured revision round is included at each preview stage.

Payment terms

50% **Deposit to start**
\$370 for Foundation, \$565 for Growth. Work begins on receipt.

50% **On delivery**
Balance due on your approval of the finished site, before final launch and handover.

Recent transport and logistics work

COMPANY	BUSINESS	SCOPE
RMG Transport	Nationwide vehicle transport	Booking and quote system with automated lead follow up
Fleet B Logistics	Trucking, West Palm Beach FL	Full site with owner operator signup funnel and onboarding
Mosley Prime Logistics	Sprinter van carrier, FL and GA	Full company site with quote and contact forms
Earth Logistics Inc	DOT authorised freight broker	15 page site, a page per equipment type, three lead funnels

Florida transport is my home niche. You are hiring someone who has built this exact kind of site, for this exact kind of company, many times over.

LET'S GET STARTED

Terms and sign off

Terms and conditions

- **Your responsibilities.** Provide your logo in its original file, photos of your trucks and loads where possible, your insurance and coverage details, and timely feedback at each preview stage.
- **Third party costs.** Domain and hosting are registered in your own accounts and billed at cost. You own them fully from day one.
- **Ownership.** On final payment, the website and all its files belong entirely to MCC Bound Legends, LLC. Every lead goes to your inbox and your phone, never through me.
- **Scope changes.** Fixed price. New pages or features beyond this proposal are quoted separately before any work begins, no surprises.
- **Support.** 30 days of free bug fixes on Foundation, 90 days on Growth. An optional care plan for updates and changes is available from \$50 per month.
- **Not included.** Paid ad spend and campaign management, and live GPS load tracking or a customer login portal, which is a separate and larger project.
- **One condition.** The borrowed manufacturer logos, the Federal Highway Administration logo and the published star rating cannot be rebuilt into the new site.
- **Validity.** The prices in this proposal are valid for 30 days from September 07, 2026.
