MCC BOUND LEGENDS LLC

HOMEPAGE DEVELOPER IMPLEMENTATION CHECKLIST

Developer Implementation Brief

Reference: current homepage viewed at 100% zoom in Google Chrome

Website: mcc-bound-legends.vercel.app

Prepared: October 7, 2026

PROJECT DIRECTION

Refine the existing MCC Bound Legends homepage - do not redesign it from scratch. Preserve the current brand identity, improve readability, spacing, hierarchy, responsiveness, and the relationship between pictures and content.

Use this checklist together with the full Homepage Revision Brief. It is intentionally short and execution-focused.

P1 - Header and Hero

- [ ] Increase top utility bar to 30-34px and make text 12-13px.
- [ ] Increase main header to about 70-80px; nav text 14-15px.
- [ ] Change header descriptor to "Nationwide Transportation."
- [ ] Use H1: "Nationwide Car, Boat & Equipment Transport."
- [ ] Use 17-18px hero supporting copy.
- [ ] Remove old hero trust points and "Moving America Forward / One Shipment at a Time."
- [ ] Remove any leftover blank columns/spacers from those deleted hero elements.
- [ ] Hero layout: left = copy/buttons; right = quote form.
- [ ] Push quote form farther right; stack cleanly on mobile.
- [ ] Hero buttons 48-52px tall, 15-16px bold.

P1 - Major Layout Fixes

- [ ] Remove the huge white gap below the dark trust section.
- [ ] Keep normal major-section spacing around 70-100px.
- [ ] Rename section heading to "The Right Trailer for Every Move."
- [ ] Move Coast to Coast / All 50 States directly after that section.
- [ ] Remove the boat-specific "Ready to Ship Your Boat?" banner from the general homepage.

P2 - Readability and Cards

- [ ] Service-card titles 15-17px; descriptions 12-14px.
- [ ] Stats banner 90-110px tall; stats 30-36px; labels 13-15px.
- [ ] More Than Transport heading 34-40px; four benefits only.
- [ ] Trust-card titles 16-18px; body 14-15px; 1-2 short sentences.
- [ ] Three-step headings 18-20px; descriptions 14-15px.
- [ ] Review text 16-18px; FAQ questions 15-16px.
- [ ] Also Coordinated links at least 12-14px and clickable.

P2 - Images and Content

- [ ] Each of the seven service cards must use a correct service-specific image.
- [ ] Add imagery to Individuals and Businesses cards.
- [ ] Images beside sections must directly match the copy.
- [ ] Use alternating image/content layouts where appropriate.

[ ] Do not use generic transport photos that do not match the service being discussed.

P3 - Global QA

[ ] No meaningful content at 9-10px.

[ ] Audit margins, padding, fixed heights, min-height and vertical alignment.

[ ] Check top banners, dark banners and CTA banners at 100% zoom.

[ ] Verify desktop, tablet and mobile for overflow and excessive spacing.

[ ] Preserve the MCC Bound Legends visual identity; refine rather than redesign.

Typography Reference

Element	Desktop target
H1	48-56px
Main H2	32-40px
Card heading	17-22px
Main paragraph	16-18px
Card description	13-15px
Navigation	14-15px
Buttons	15-16px
Eyebrow	12-14px
Fine print	11-12px minimum

Final test: At 100% zoom, the site should look intentional and every meaningful item should be easy to read without zooming in.
